Senaterial Election. LETTER FROM BENJ. FINCH, Esq. To the Editor of the Journal:

I am one of the Whig members of the General Assembly who voted for Charles T. James for Senator. I have been exposed to much obloguy and misrepresentation on account of this vote; and relying upon the assurances of others. I have patiently awaited the time when I might vindicate myself before my fellow citizens, and show that I acted from honorable motives, and from a sincere disposition to promote the interests of the party with which I have always noteJ.

I do not prepose to enter upon any discussion of the peculiar state of the Whig party at the time of the Senato rial election, nor of the causes which made it impossible for them to agree upon a candidate for Senator who could command a majority of the Grand Committee. My object is to defend myself, not to criminate others. I design only to show that I voted for a candidate who, il any faith is to be placed in verbal declarations and written pledges, is a Whig. That Charles T. James had voted with the Whig party for over lead years has been already stated upon his own nuthority. He has admitted the truth of this to me. But although he had for so long a time voted with the Whigs, his receiving the nomination of doe Democrats naturally excited doubts files political position; and for this reason, the proposition made to a portion of the Whigs to vote for him was not at first received with much favor. To meet this objection, and to secure the support of the Whige, without whom he could not be elected, he addressed the following note to the Hon, William program the substance of which was of amounted to me and others, before altagior our and on the strength of which we voted for him: Hon. Wh. Sprice:

Dear Sir-In reply to your inquiries, permit me to say-lum in favor of the actiong. Whig measures, and particulate of a pariff that chall afford of a provening to the manufacturing sis and labor of the country, and reted to the office of U.S. Senator, I will cordially use my efforts to sustain

Respectfully and truly yours. CHARLES T. JAMES. Providence, Jan. 30, 1851.*

lo en interview with Gen James, on Mar Ly, the 10th insta he fully confirmor continue made in the letter, and gave no the most positive assuranwas a Whige and that he with the Whig party in the Senate of the United States. He further said that he was, and always had been opposed to Dorrism, and that he from Newburyport in 1812 to offer his services to the government of his native state in the struggle with anarchy and treason.

I now fearlessly submit to my fellow citizens the course which I have adopted, and the reasons which fed moto it; and which led me to believe that Gen James would render good service to the Whig party and credit to the state in the position to which I aided in electing him.

BENJAMIN FINCH. Newport, March 13, 1851.

*[At the request of Mr. Finch, we have examined the original of this note. which is written and signed by Gen James - En. Jour]

BPWe copy the following article. relative to the foregoing, from the Providence Post of Monday :-

The Matorial Election-Benjanda Finch vs. Churles T. Junies -- The Lust Hope of the "Traitors."

As a faithful chronicler of the quality of articles in our markel, we get down the Providence Journal of Saturday as the Providence 300ma of Saturday as decidedly rich, pipey and buopant. There was life in it—and that is romething.—
There was evidence that the featful crisis had gone by—that the moures breathed, and that the mountain year vived. This is hopeful—cheering.

The chief article of interest in the The chirl article of interest in the Journal of the date elluded to, is in reference to the politics of our new Senator, General Charles T. James, and is signed by Benjamin Finch, Esq., of Newport. We propose a glance at it.

It is prebably well known to many of ur readers that Mr. Pinch, though hilming to be a thorough and reliable Whig, and representing one of the strongest Whig towns in the State, vot-est for General James for Senator, on ed for General James for Senator, on the final ballot in Grand Committee.— For this doing, he found himself de-nounced, the next morning, in the Prov-idence Journal, as having been guilty of hase "treachery" to his party. The Newport News, published in his own town, instead of defending him from the oreault, also took up cutged against him and charged, him and the other the occault, also took up cutigels against bim, and charged him, and the other Whigs who accompanied him in the treason, with having basely deserted the stand and of the party, in the hour of trial—as corrupt in principle—and as unfit for any public station. On returning to his constituents, after the session of the Assembly was closed, he found the same state of things which the open attacks of the News had led him to fear. He was looked upon by nine-tenths of He was tacked upon by nine-tenths of his old political friends as a traitor, and was ee denounced by those whom he had betrayed. Of course his position was not the most comfortable.

Writhing under the lastice of his old friends; openly charged with being, and fully proved to be, a deserter from the Whig organization; and feeling, every day more intensely, the wretchedness of his sitention, he finally comes forward in his own defense, and attempts to justify his vote in the Grand Councilton. tify his vote in the Grand Committee. He seeks an agreeable opportunity to do so. He watches for the absence of General James, and when that gentle-man has been two days from the city, with the intention of visiting a distant section of the country, he opens his bat-turies. He fires two shots j-the first, his own assertion of General James's nis own essertion of General James's politics—the other, a letter from General James to William Spragae. Of the first—his mere assertion that General James is a Whig—that he told him so,—we shall take hitle notice. We want some better evidence, in a case of this kind than the testimony of the interested party—the cronian, converted by his own neighbors and friends, of treason to them and to his party—the man who is denounced as currupt and us a traiter in his own party cronian in his traitor in his own party organ, in his own town. We deny that such testimony is proper evidence in this case; and we point to the fact that only this and we point to the fact that only this kind of evidence is offered to make out General James a Whig, as showing conclusively that the cause it is used in, is inopelessly rotten. Mr. John Holden, we are credibly informed, told a Whig member of the Assembly, on the very morning of General James's election, that he knew of no movement to elect him, and cidiculed the idea of his receiving Whig support. The next day ceiving Whig support. The next day he hand himself denounced in the Journal as one of the traitors; and then he made the discovery that General James had been a Whig for ten years!" What is such testiniony worth, when placed against the admitted fact that Gen. James has always been known and regarded as a Demucrat - that the whig editors, down to the time when this offices on? was charged, had always admitted him to be such? What is the testimony of Mr. Finch worth, when given in nearly the same words,—himself resting order the same charge of treason to his friends, --when weighed against the same undisputed facts?--Is it not worth remarking that we get only this sort of testimony, from these convicted deserters, in support of the assertion that General James is n

But we glance a step farther-at the letter to Governor Sprague. Here is the letter itself, as given by Mr. Finch; Hou. WM. SPRAGUE:

Bear Sir—In reply to your inquiries, permit me to say—I am in favor of the leading Whig measures, and particularly that of a tariff that shall afford ample protection to the manufacturing is and labor of the country, and it circled to the office of U.S. Senator, I will cordially use my efforts to sustain

Respectfully and truly yours, CHARLES T. JAMES.

Providence, Jan. 30, 1851. The reader may well entertain doubt of the genuineness of this letter, from the reading of the Journal. It has all the appearance, in the manner of its publication and from the circumstances rurraunding its listory, of being a take production. The editor of the Journal has had the original in his possession, but mysteriously forgets to say that this is a true copy; and we cannot help re-membering that it is not what has all along been shallowed forth as the terri-ble thing that should some day spring up in and devour us. We have seen, what purported to be a copy of the standard said he based his vote for Gen-eral James;—but it did not read like that. It be ter appeared the Whig was the. It bester answered the Whig pur. Prop. It more resembled what the Journti has half a dozen times repeated as the substance of the original. But we will take it for granted that this is the true document; the document which we have several times intimated an de-Sie to see, "but which it was not conwith ni to publish union creation and left that the city for the South and West." In this letter, General James says he is in layor of the colling Whigh a Manufacture says he is in

General James, as to 'lending' meas, ply to the statements of the Journal ures, which is here implied? One of and its correspondents, so far as they the measures is mentioned—'a tariff affect the integrity of our party. We that shall afferd ample protection to the publish it in justice to those who remanufacturing interests and labor of commend Gen. James's election to the manufacturing interests and labor of the country." We have once state that General James' tariff opinions di the country." We have once stated that General James' tariff opinions differed from those of many Democratic and intimated that he was in favor of some modification of the present law.

But we have denied that he was in favor of a return to the Whig tariff of 1842 or anything that should easentially resemble it. The Hon. William Sprague who probably knows the opinions of General James on this subject, will not deny that we are correct, and that we have stated the Senator's position plainly and fairly. Ho is in favor of sample protection, to the manufacturing interests; but he has published column uponcolumn, under his own name, to show that no such sprotection as that given in the tariff of 12, and contended for now by many of the manufacturers is actually needed. So much for one of the smeasures, referred to.

Now what is the other 1 Is it a National Bank?—a State Bank system? the abolition of the Independent Treasury?—the distribution of the proceeds of the public lands among the States is it an independent of the proceeds of the public lands among the States.

ury 1—the distribution of the proneeds of the public lands among the States 1 is it an indorsement of the present policy of the government towards Central America; or towards England, in connection therewith? What is it-this other measure? Why, simply,—if we may be allowed to divulge the secret,—the proposition to improve our near-ern rivers and harbors, If Gen. Jungshad been in the Senate, he would have stood with Lewis Case—that entirent White—and Judge Douglass, and Gen. stood with Lewis Case—that eminent Whig—and Judge Douglass, and Gen. Walker, those other great Whige—in favor of the prominent features of the River and Harbor Bill. This bill was calculated to promote internal improvedments,—and Governor Sprague, perhaps, called it a "feading Whig measure." General James was in two of it, and instill in favor of it, and instill the second of its of its of the second of the second of its of the second of t and is still in fitvor of it, and insists that it is Democratic: He insists, also, that the tariff may be modified to meet his views, without any abandonment of the Democratic policy. And with this un-Democratic policy. And with this understanding if we are correct in our position, he signed the letter which we give above, and which commits him to the "leading measures" of the Whig party—that is, to a modification of the tariff—(already secured in part by Mr. Hunter's bill, which was passed by Democratic votes.) and to a measure for the improvement of the Rivers and Harbors of the Great West—a measure which received much Democratic supwhich received much Democratic sup port in both Houses of Congress, and which was only lost in a Democratic Senate by the obstinacy of its Whig friends. We would not have it under-Senate by the bostomey organ was friends. We would not have it understood, that we are here taking position in favor of or against the position of Gen. James on these two measures.— Gen. James on these two measures.—
But we assert that his position does not make him a Whig. If Mr. Finch thinks differently, we cannot help it. We can only advise him to hug his precious belief while he may; for he will probably find, in the course of the present week, that his published opinion needs quite as much modification, to suit the truth in the case, as our present tariff does, to suit the views of Gen. James.

One further word in conclusion. We have repeatedly practained Gen. James to be a Democrat, and have more than once expressed our satisfaction with his

once expressed our satisfaction with his election. We have thought that we knew what his sentiments were on the prominent questions of the they, and have regarded them as satisfactory to the great mass of the Democrats of the State. We may have erred; but it is yet to be shown, and we have yet to be fice it. He may have said to Mr. Finch, that if we be in fliver of the measures we have referred to, was to be a Whig, then he was one; but that he has declared himself to be one, in unqualified terms, is what we shall not believe, on the testiniony yet offered. He has been leaded upon the statement of th been looked upon as a Democrat, for at least fifteen years, by all who have known him; and not an intimation to the contrary, that we have ever heard of, was ever lisped where he resided, till some thirteen. Whig gentlemen awoke one morning to find themselves the named by the second of themselves. awoke one morning to find themselves denounced by the organ of their party as guilty of a base and shameless act of treachery. It was known to Whige and Domocrate, early in the last autumn, that he had orged the Democrats of the State to take the field once for in carnest; that he contributed of his means and used all his influence to have them and used all his influence to have usern to do so effectually ; and that he even consented to be their candidate for Gavernor—a step that required a greater atterifice of him than it would have required of any other Democrat, and per-haps we might say, of any other busi-ness man in the State—if the party should desire it, and should deem the sacrifice as in any manner strengthen-ing their chances of success. From that time down to the day of his election, his name was familiar with our people; and we venture to say, the man cannot be found, of any party, who in-timated a single doubt that he was a firm, decided, national Democrat. He telegraphed his own election to Wash-ington as a Democratic triumph, and has since uniformly spaken of it in the influence unremittingly, for our final triumph. There is not a Whig in the trainph. There is not a Whig in the rity, who has marked his course, and who has failed to perceive that he was with us, and was laboring for us. And we venture to say that the editor of the Journal himself, who publishes Mr. Finch's letter with such a flourish of transports has reacher object in rich. trampels, has no other object in view. placing that document before the world, than to gratify a clique of his party who were determined to defeat Mr. Simmons

James. Senatorial Election position of General James:

commend Gen. James's election to the Senate—in justice to those whose confidence they have enjoyed—and in justice to Gen James, who will undoubtedly confirm all the statements here made when he shall have opportunity.

We are happy to say, in this connection, that Gen. James had not got so far on his Western journey, when Mr. Finch, discharged his arthlery, as that gentleman probably supposed, and that the people will probably hear from his own name, in the course of a few days: a few days:

We, the undersigned, having seen in the Providence Journal a communication from Benjamin Finch, Esq., a member of the General Assembly of this State, in which Mr. Finch publishuns state, in which Mr. Finch publishes a letter purporting to be a letter from the Hon. Charles T. James to the Hon. Win. Sprague, dated the 30th of January last, wherein wr. James says that he is the favor of the leading Whig measures, and in which contamination Mr. Finch asserts that on Whig measures," and in which com-namication Mr. Finch asserts that on Monday, the 10th inst., Mr. James, in an interview with him, fully confirmed the declarations made in the letter," and gave him, Mr. Finch, the most pos-itive assurances that he, Mr. James, was a Whig, and that he should act with the Whige party in the Secare of with the Whig party in the Senate of the United States," doesn it in an act of justice to ourselves, as well as to the Democratic members of the General Assembly who voted for Mr. James, and Mr. James himself, to make the

ond Mr. James mineen, to make me following statement.

On the evening of the 24th December last, we met Mr. James, by appointment at his house in this city, to confer with him, as a Democrat, on the prospects of the Democratic party in the then approaching elections.

On this occasion Mr. James consent-ed to be the candidate of the Democratic party for Senator in the Congress of the United States. He assured us in the mest positive and unqualified terms that though he had not of late been actively engaged in politics, he was a Democrat, and had always believed to that next, that all his testes was a Democrat, and and always be-longed to that party; that all his tastes and feelings were, and ever had been with the Democrats, and that in case of his election, an event not anticipated by us as there was a large Whig major-ity in the Legislature, he should use his best efforts to support the Democratic party, and Democratic measures in the Senate of the United States. Relying on these unequivocal declarations of Mr. James, as well as upon his genera reputation as a democrat, and his high character for probity and honor, we re-commended him to the Democratic members of the General Assembly as a suitable candidate for the office of Senator, in the full confidence that he was a thorough Democrat. It is well known that on every ballot in the General Assembly he received the unanimous

vote of the Democratic members. The latter above mentioned purports to be a letter from Mr. James to Mr. Sprague, in answer to "inquiries" made by Mr. Sprague. The supposed "inquiries" are not contained in Mr. Finch's communication, and the supposed original letter of Mr. James is not tendered for public inspection.

Mr. James is now absent from the State, and it is much to be regretted that Mr. Finch's communication had not been made before his departure so that Mr. James might have had opportunity to meet, and immediately refute the charges therein contained, so derogatory to his reputation as a gentleman, and a man of honor. In his absence, we feel bound to say that since the time when Mr. James became the Democratic candidate for Senator, under the above mentioned vircumstances, we have seen nothing under his hand, and have heard from him no in-timation which should warrant us in believing that he has been guilty of the conduct imputed to him by Mr. Finch; and we respectfully 'request the oub lie to suspend their opinion upon the sulject, until Mr. James shall return to the State, or have an opportunity of replying to Mr. Finch's communica-

EXPERIENCE for the Basis of Ball Real Knowledge.—To SEE and to FEEL is to KNOW, and that which is seen and known must not be contradicted. Whon Gailleo automated the discovery of now plants, the Aristotelians and, "This is impuble." Gailleo recibed, "Lock through my telescope, and behold." The philosophera repinded, "We will not look lest we should be them." There are a few people nowardays so silly that they will not look at feets lest some prejudice should be disturbed. These persons are, however, not numerous, and their stupidlity injures nobody but thermelves. The character of Dr. S. P. Townsond's Compound Extract of Sarsaparille rests upon universal experience abone. Without this solid foundation, it never could have attained the widespiral popularity which it in present enjoys. In value and medicinal efficacy being thus domesticated by the experience of thousands, it is only necessary to say that science sanctions and verifics the verdict.

Dr. 5, F. Townsans—Deer filt: I am most happy to acknowledge that, after atdacing for nearly nine years with the Sait Rheum in a very aggravated form, and being abandoned as incurable by several of our fart physicians, I was finally persuaded to try your far-famed Sarsaparila. The effects were soon perceptible, and when I had used ten bottles, your great sarprise I found myself not only cured of that most disapprocease and irritating disease, but my general health was to much improved that it astonished my family and friends. Since then I have addited others to make use of your Healtings, and have noticed its wonderful effects coming in numerous diseases, not altogether caused by a had rists of the blood.

Among those we consider worthy of notice is the German Bitters, invented by Dr. Hoosfand, and prepared by Dr. Jackson, in Philadelphia. One instance in particular, in which the superior virtues of this needleine has been tested, has fallen under our deservation. During the has anamer, a son of Mr. Abraham Crabill, of this county, was very seriously afflicted with Liver Complaint, and after trying in vain various remedies, he puritised a bottle of the Bitters, and after using it, was so made relieved of his distressing usually, that he promud another bottle, and its restored ventirel to "ceath" in the McKad Philippin that we make any allusion to Patent Medicines."

"It is very schlow that we make any allusion to Patent Medicines, either approving or other wise. Unfortunately for the country, and for honest and conscitations inventors and vonders of these madicines, the land is becoming blooded with quark preparations, that are made alone for profit, and are fit not even for the dogs. In this scate of things it is hard to tell which are, and which are not discuss the land is becoming blooded with quark preparations, that are made alone for profit, and are fit not even for the dogs. In this scate of things it is hard to tell which are, and which are not weeth having. If a person gets an indifferent medicine the first time he purchases, he is very apt to condemn the whole of them and law un more, and intenersmust only blame thore of their nonlare, which attends the effort of sile deserving."

"We believe Pr. C. M. Jackson's 'Hoofland's German Bitters,' to be a most excellent medicine, and one that should be highly popularin these days of Temperancessory are realing them to becomes known, it will, no loubs, fully enjoy."
